Experience

Uzr Technology   **Sep 2022 – Sep 2024**
Front end Developer   *Kohat, KPK*

- Hi! I'm Waseem Babar, a front-end developer with 2 years of experience specializing in Vue.js. I thrive on transforming ideas into functional and visually stunning websites that engage users and elevate their online experience.
- I possess strong skills in HTML, CSS, and JavaScript, which enable me to create responsive, interactive web applications. I focus on clean code and efficient design to ensure seamless user experiences across all devices.
- Currently, I'm expanding my skill set by learning Laravel, which will allow me to integrate backend functionality into my projects. This knowledge enhances my capability to deliver complete solutions from start to finish.
- I'm passionate about solving complex problems and committed to delivering exceptional user experiences through thoughtful design and development. I believe in the power of collaboration to achieve remarkable results in web development.

Startup, Inc   **Sep 2022 – March 2023**
Front End Developer Intern   *Kohat, KPK*

- During this internship, I developed hands-on experience in building interactive web applications using Vue.js. I collaborated with a team to implement features, optimize performance, and enhance user interfaces, contributing to a seamless user experience.

Projects
